

No new matter is introduced. Support for the Amendment is found in the specification, for example, at page 19 generally and figures 8 and 12.

For at least these reasons, it is respectfully submitted that this application is in condition for allowance. Reconsideration of the application is requested.

Should the Examiner believe anything further is desirable to place this application in even better condition for allowance, the Examiner is invited to contact Applicant's undersigned representative at the telephone number listed below.

Respectfully submitted,

## APPENDIX

## Changes to Claims:

The following are marked-up versions of the amended claims:

14. (Amended) An internet facsimile device comprising:

first receiving means for receiving by the internet facsimile device via an internet at least one set of electronic mail data attached with an electronic mail title;

title reading means for reading the electronic mail title;

title displaying means for displaying the electronic mail title that has been received along with the electronic mail data;

data selecting means for selecting electronic mail data from the at least one set of the electronic mail data based on the electronic mail title; and

image forming means for forming an image based on electronic mail data selected by the data selecting means, wherein the internet facsimile device displays the received electronic mail title.

21. (Amended) A method of controlling an internet facsimile device, comprising the steps of:

receiving electronic mail attached with a header by the internet facsimile device from a remote internet facsimile device, the header including a title;

reading the title from the header;

displaying the title that has been received along with the electronic mail data;

and

forming an image based on the electronic mail when requested by a user, wherein the internet facsimile device displays the received electronic mail title.
